

Technical Training Seminar

Wednesday - December 9, 2009

MAP/Eagle Automotive

1107 Croxton Ave

Bloomington, IL 61701

Anti-Lock Brakes and Interactive Vehicle Dynamics (IVD)

This training includes a description of the function and operation of the components of Ford and Lincoln-Mercury Anti-Lock Brake Systems (ABS) and Traction Control Systems:

- Additionally, the training includes description of the function and operation of the components of Ford Lincoln-Mercury Advanced-Trac stability assist systems.
- Basic diagnostics and known issues and repair procedures will be discussed during this seminar
- Additional information will be presented on the brakes systems on Hybrid and Medium Duty Trucks.
- This presentation is recommended for technicians that have basic brake service experience, but wish to expand their knowledge of the operation of Ford and Lincoln-Mercury ABS, Traction Control and Stability Assist Systems.
